

Klode Media (IKUSI Multimedia) & Triax merge

In January of this year, the companies **Triax** and Klode Media (former **IKUSI** Multimedia) merged creating one organization under a single name and brand: **TRIAX**.

Our vision is to be the preferred connectivity partner through dedicated support and cutting-edge technological leadership. By combining our complementary offerings, strong R&D foundation and, above all, customer-focused values, we look forward to continuing to support to our customers in the new merged company.

Together we aim to create **game-changing new opportunities** such as cloud-based digital platforms of connected products and online services, standing at the forefront of the fast-growing B2B audio-visual and data solutions market.

Our focus will be relentlessly dedicated to being our customers' **preferred partners** – understanding their needs and concerns, growing and adapting with them, to earn a position of trust, reliability and expertise.

We will be outward reaching and forward looking, committed to **connecting the future**.

Greece has always been an excellent market for products aimed at hospitality and we hope to show our clients that with this new step our products will be even more interesting for them, achieving better solutions for hotels, hospitals, residences... We will develop products with very interesting technologies for all of them, thus increasing their profits.

Our agent, Thanassis Kyriakopoulos, will be glad to give you any information needed. Please, email to tk@idcoms.gr or tk@ikusi.gr.
